I am a fast learner, and always eager for new knowledge. I am passionate and enthusiastic about programming and take every chance I get to expand my abilities. Every challenge I face is an opportunity to learn a solution. I approach my work with care and take pride in making sure each project I build is perfectly executed.

SKILLS

FRONT-END DEVELOPMENT

HTML, CSS, JavaScript,
jQuery, AngularJS, Wordpress

SERVER-SIDE / BACK END

PHP, Ajax, NodeJS,
SQL / MySQL, C#, LUA

GRAPHIC / 3D SOFTWARE

Adobe Creative Suite,
3DS Max, Unity, Vectorworks

WORK

NEON FOX CONSULTING

- Created a custom WordPress template to fit the clients needs
- Worked with WordPress to create custom controls to let the client easily update and change content

THE MUNY, ST. LOUIS

- Kept up to date, detailed records of seven different musical productions
- Helped execute and communicate design ideas between departments

OPERA THEATER OF SAINT LOUIS

- Implemented electrical needs for efficient transitions between four operas

PROJECTS

CONCRETE JUNGLE

- A site where subscribers come together by hosting and attending parties.
- Designed for a user who is always on the go, it is important that the site is mobile friendly. Built a responsive layout that works on every device using Bootstrap.

INKBLOCK

- Created a system that would display each page without creating them individually using php to fetch xml data.
- Used google maps api to add a functionality that searches for tattoo shops in an area surrounding a given address
